

APPLE PIE

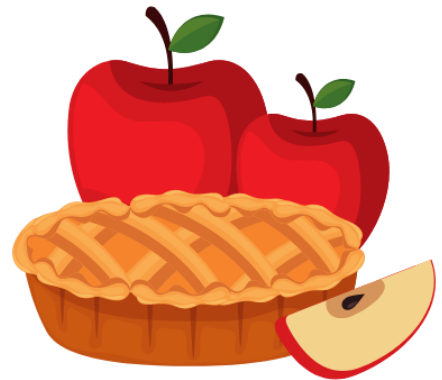

The children collected "gnarled apples to turn into pies". Use the instructions below to create a super simple apple pie.

YOU WILL NEED

- short crust pastry
- 1 x tin apple pie fruit filling
- 12 hole muffin tin
- puff pastry

INSTRUCTIONS

- 1 Using a butter knife, to avoid accidents, have children cut circles from the short crust pastry.
- 2 Press the pastry into the muffin tin so it just reaches the top.
- 3 Fill each pastry base with apple.
- 4 Cut the puff pastry into strips.
- 5 Place short strips of puff pastry over the apple in a lattice formation (*Brush with an egg and milk mix and sprinkle with cinnamon and sugar if desired*).
- 6 Bake at 180° Celsius until browned on top and fully cooked.
- 7 Cool and serve with cream or ice cream for an occasional treat.

Follow a sequence of steps for making designed solutions such as a recipe.
