

Flower Press

Use the instructions below to allow you to keep your flowers as a pretty bookmark.

1

For beautiful pressed flowers, gather clean flowers free of spots or blemishes. Try collecting them on a sunny day when they are not wet.

2

If you are using a Learn From Play flower press, loosen the four wing nuts and open the press. Place each flower between two pieces of parchment paper. Multiple flowers can be pressed at once.

3

Return the corrugated card and tighten the wing nuts to press the flowers. Leave to dry for at least two days but up to seven days may be required.

4

Fold a piece of clear adhesive plastic in half and remove the backing from one half. Place it on a flat surface, sticky side up.

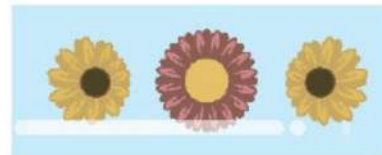

5

Stick the pressed flowers onto the plastic. It's okay if some of the flower hangs over the edge.

6

Peel off the remaining backing and sandwich the flowers between of the plastic. Trim the contact paper to the size you want for your bookmark.
