

PHYSICAL ACTIVITY

This book is all about emergency workers and the vehicles they use to assist them in their work. Designed for young children in Pre-school, Kindergarten or Preparatory this activity will assist students in learning some of those vehicles.

Using the cards below children can pretend to be in or on one these emergency vehicles. As each card is shown children must change the vehicle they are pretending to be. They must also work to avoid crashing into other children as they race around to get to their emergency.

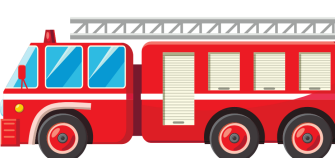

Cooperate with others when participating in physical activities
