

Obstacle Course

For a more active exploration of this story you could have children complete an obstacle course where their lunch is waiting for them at the end. Alternatively they could complete a series of 'missions' such as hanging up the washing, racing to the letter box and back, jumping up and down 12 times and hopping on one foot twice before they receive a sweet treat.

Use the template cards below to create action cards for children to complete - 4 have been done for you.

Jump up and down 5 times	Turn in a full circle twice		
Touch your toes 6 times	Skip to the nearest wall and touch it
