

# Physical Activity

In the story *Clementine* hides the Queen's necklace and the family must search for it. In the space below have children draw a treasure map for a friend to follow - this could be drawn as a maze map, a list of items and what must be done at each location such as run around the blue chair, hop 3 times at the base of the poplar tree or walk 5 paces forward, turn left, walk 3 paces forward, turn right. Once drawn, or instructions are written, children can swap maps to see if they can find the treasure located at the end of their given map.

Follow rules when participating in physical activities
