

seed bomb

Olivia wants to attract butterflies and the best way to do that is by growing flowers. Use the instructions below to make a seed bomb to help grow flowers and attract butterflies to your garden or local park.

YOU WILL NEED

- Wildflower seeds - from your garden or a garden shop. It is very important that native seeds are used rather than potential weed seeds.
- Clay powder from craft shops or clay soil if available
- Peat-free compost
- Water
- A bowl

INSTRUCTIONS

- 1 Mix 1 cup of seeds with 5 cups of compost and 2-3 cups of clay powder or clay soil in a bowl.
- 2 Slowly mix in water with your hands until everything sticks together.
- 3 Roll the mixture into firm balls.
- 4 Leave the balls to dry in a sunny spot.
- 5 Now for the fun bit! Plant your seed bombs by throwing them at bare parts of the garden or on urban wasteland (neglected roundabouts, flower beds and planters etc) and wait to see what pops up!

Engage with situations to explore their environment and nature.
