

# The growth in whale numbers

Humpback Whales were decimated by commercial whaling in the 19th and early 20th century. They were one of the first species protected under the Endangered Species Act of 1970. Use the data below to graph the rise in whale numbers.

1920	45,000
1940	32,000
1960	1,000
1980	3,000
2000	15,000
2020	42,000
