

MAKE A MIRROR

Follow the instructions below to make your own mirror.

YOU WILL NEED

- The images below copied onto thick cardboard
- Aluminum foil
- Glue
- Scissors
- Clear tape or contact paper

INSTRUCTIONS

- 1 Cut out both mirrors and remove the centre from the 1st mirror.
- 2 Cut a piece of aluminium foil slightly larger than the centre cut out.
- 3 Use a glue stick or spray adhesive to evenly coat the surface of the full mirror.
- 4 Cover the entire upper section of the mirror - not the handle with foil and smooth to avoid air bubbles.
- 5 Glue the cut-out mirror to the top of the foil sandwiching the foil between the 2 pieces of cardboard.
- 6 For a more reflective and durable finish, you can cover the mirror with clear contact if desired.

Follows a sequence of steps to create an artwork
