

## Best Drawing of a Bird

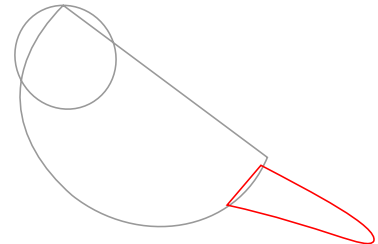

One of Tilly's treasures was her "best drawing of a bird". Use the instructions below to draw your best drawing of a bird.

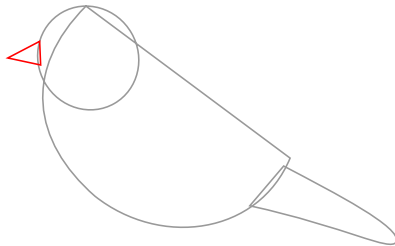

Draw a circle for the head.

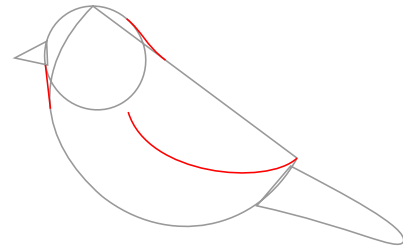

Draw a half circle for the body.

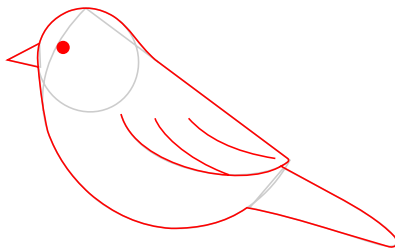

Draw a triangle with a round tip for the tail.

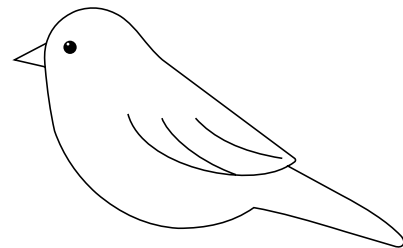

Draw a triangle for the beak.

Draw lines to create the form of the bird. A curve line for the neck, another curve line for the back of the head and a circle for the wings.

Draw the final outline of the bird with a darker pencil or pen.

Erase the sketch lines to reveal your best bird.
