

Maths Counting to 10

Harold shared his carrot cake with his friends. Can you count how many carrot cupcakes Harold has in each question below.

$$\begin{array}{c} \text{3 cupcakes} + \text{5 cupcakes} = \underline{\hspace{2cm}} \\ \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \end{array}$$

$$\begin{array}{c} \text{2 cupcakes} + \text{1 cupcake} = \underline{\hspace{2cm}} \\ \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \end{array}$$

$$\begin{array}{c} \text{3 cupcakes} + \text{3 cupcakes} = \underline{\hspace{2cm}} \\ \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \end{array}$$

$$\begin{array}{c} \text{4 cupcakes} + \text{3 cupcakes} = \underline{\hspace{2cm}} \\ \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \end{array}$$

$$\begin{array}{c} \text{4 cupcakes} + \text{2 cupcakes} = \underline{\hspace{2cm}} \\ \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \end{array}$$

$$\begin{array}{c} \text{5 cupcakes} + \text{2 cupcakes} = \underline{\hspace{2cm}} \\ \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \end{array}$$

$$\begin{array}{c} \text{6 cupcakes} + \text{4 cupcakes} = \underline{\hspace{2cm}} \\ \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \end{array}$$

$$\begin{array}{c} \text{1 cupcake} + \text{3 cupcakes} = \underline{\hspace{2cm}} \\ \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \end{array}$$

$$\begin{array}{c} \text{2 cupcakes} + \text{3 cupcakes} = \underline{\hspace{2cm}} \\ \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \end{array}$$

$$\begin{array}{c} \text{4 cupcakes} + \text{4 cupcakes} = \underline{\hspace{2cm}} \\ \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \end{array}$$
