

Smoking Ceremony

Create a smoking ceremony picture.

You will need:

Black cardboard

Leaves

Small twigs

Glue

Chalk or Talcum powder

How to make it:

1. Glue some leaves close to each other in the middle of the bottom of your sheet as shown.

2. Add the sticks in a tepee shape over the leaves.

3. Glue the remaining leaves to cover the sticks and surround them like a fire.

4. Either glue jagged lines from the fire towards the top and outside of the cardboard and sprinkle with talcum powder to make smoke or

5. Use chalk to make smoke radiating from the fire towards the outside of the cardboard.
