Carrot Cake Recipe

Harold wants to bake a carrot cake to share with his friends. He finds the recipe below but it is going to make too much cake for the 4 of them. Can you $\frac{1}{4}$ the recipe so Harold has just enough for each of them.

ORIGINAL CARROT CAKE RECIPE

- 2 cups Self Raising Flour.
- 2 teaspoons baking soda
- 2 teaspoons ground cinnamon
- 1 cup vegetable oil
- 2 cups sugar
- 1 teaspoon vanilla extract
- 4 eggs
- 4 cups grated carrots

$\frac{1}{4}$ CARROT CAKE RECIPE

- _____ cup Self Raising Flour.
- _____ teaspoon baking soda
- _____ teaspoon ground cinnamon
- _____ cup vegetable oil
- _____ cup sugar
- _____ teaspoon vanilla extract
- _____ egg
- _____ cup grated carrots

ACMNA058/MA3-7NA – Models, compares, represents and calculates unit fractions including $\frac{1}{2}$ and $\frac{1}{4}$.
