

SHARK DRAWING

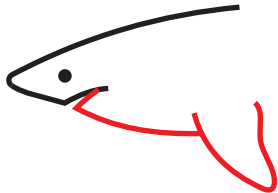

Use the instructions below to draw a great white shark.

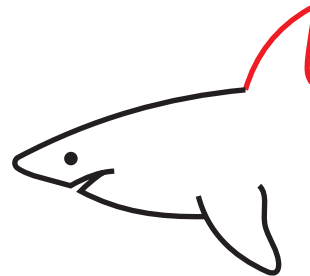

Draw first the eye with a large dot. Starting from there on the left side draw a curved line going to the right.

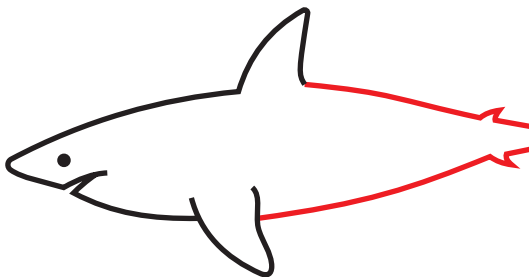

From the snout, draw a curved line going down just below the eye then draw another curved line for the mouth.

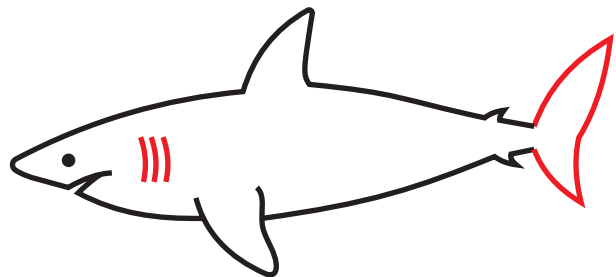

Finish the mouth by drawing a short line to the left and continue the shape of the shark until it reaches the fin. Draw the fin with a curved line down then a wavy line up to the body.

On the top part, Draw another fin.

Continue making the body of the shark on both sides. Near the end of the tail draw a pair of short fins.

Finish your shark by adding the tail and the shark's gills.
